

After many years Harry Martin has retired, and Products for Research Inc. ceased production as of February 29, 2008.

My name is Joe Rochna, I was an employee of Products for Research Inc. for twenty years, many of them as the plant manager. My wife and I have formed a new company PFR Technologies, LLC, our goal is to continue some of the Products for Research Inc. product line and to provide replacement parts for existing products.

At this time we are in the process of organizing our company, establishing vender contacts and restocking inventory. There may be some delays as we move forward with this process. At this time we have a limited production capacity and will fulfill our customer's needs to the best of our ability.

Please feel free to contact me at joer@pfrtech.com for the fastest response. Our phone number is 978-774-3250, and the Fax is 978-774-3251. The best times to get us by phone at this time are Mon 7:30am to 4pm, Tue, Wed & Thu 4pm-5pm and Fri 11:30am-4pm. All times are USA Eastern Standard Time.

We welcome all input and hope to hear from you soon.

Thank you for your continued faith in our product.

Sincerely,

Joe Rochna
PFR Technologies, LLC
